10/722,694**REMARKS**

Applicant respectfully requests reconsideration as follows:

RECEIVED
CENTRAL FAX CENTER**MAY 22 2007**The Claim Objections

Claim 21 has been amended to address the informalities noted by the Examiner. However, Applicants note that the GPS-art-accepted definition of "C/A code" is "coarse acquisition code." This may be readily seen by performing an Internet search on "C/A code" or "C/A code definition." Thus, Applicants respectfully traverse the suggestion that claim 21 be amended to recite "clear acquisition" in the preamble. Instead, Applicants have used the art-accepted definition as discussed above.

Double Patenting

The enclosed terminal disclaimer obviates the nonstatutory obviousness-type double patenting rejection over claim 2 of U.S. Patent No. 6,724,811

For the foregoing reasons, the pending claims are in condition for allowance.

If the Examiner has any questions or concerns, a telephone call to the undersigned at (949) 752-7040 is welcomed and encouraged.
